

An important resource for everyone  
involved in research on the  
metabolism of drugs and chemicals

# DRUG METABOLISM AND DISPOSITION

The Biological Fate of Chemicals

Editor: **Vincent G. Zannoni, PhD**, University of Michigan,  
Ann Arbor, Michigan

**DRUG METABOLISM AND DISPOSITION** publishes *in vitro*  
and *in vivo* experimental results that bring readers significant  
and original information on xenobiotic metabolism and  
disposition, including metabolism of all pharmacologic agents  
or drugs and environmental chemicals, reactants, and preser-  
vatives. All papers are refereed to ensure a high standard of  
publication. The areas covered are:

- pharmacokinetics
- pharmacodynamics
- genetic, nutritional, and hormonal factors affecting the  
biological fate of chemicals
- toxicological consequences of xenobiotic metabolism

This journal should be a standard reference in all pharmacology  
and toxicology departments. It is also a valuable resource for all  
medicinal chemists involved in designing drugs and all biochemists  
involved with drug metabolism.
