Drug Metabolism and Disposition: the biological fate of chemicals

January/February 1992 Vol. 20, No. 1

CONTENTS

Catalytic and Immunologic Similarities between Monkey and Human Liver Cytochrome P-450db1 (Human Cytochrome P-450 2D6). S. V. Otton, R. F. Tyndale, D. Wu, T. Inaba, W. Kalow, and E. M. Sellers .......................................................... 1
Pharmacokinetics of 2-Ethyl-1,3-hexanediol. II. Nonsystemic Disposition following Single Percutaneous or Peroral Doses in Fischer 344 Rats. Stephen W. Frantz, Joyce L. Biskitt, Christine M. Grose, Marilyn J. Tallant, and Bryan Ballantyne .......................................................... 6
Comparisons of Hepatic and Renal Cytochromes P-450-Dependent Monoxygenases from Fuzzy and Sprague-Dawley Rats. Elizabeth Cherithunnam, Ramona Almirez, and Alvito P. Alvares .......................................................... 19
Characterization of Human Liver Cytochromes P-450 Involved in Theophylline Metabolism. Mohamadi A. Sarkar, Christine Hunt, Philip S. Guzelian, and H. Thomas Karnes .......................................................... 31
Microbial Models of Mammalian Metabolism: Bio-transformations of O-Methylcarbazole Using the Fungus Cunninghamella echinulata. Wei Yang and Patrick J. Davis .......................................................... 38
Pharmacokinetic Evaluation of (−)-6-Aminocarboxivor as a Prodrug for (−)-Carboxivar in Rats. Cheryl L. Zimmerman, Rory P. Remmel, Safaa S. Ibrahim, Scott A. Beers, and Robert Vince .......................................................... 47
Deacetylation of Cinobufagin by Rat Liver. Lisha Zhang, Kimiko Aoki, Takemi Yoshida, and Yukio Kurowa .......................................................... 52
Characterization of the Cytochrome P-450 Gene Family Responsible for the N-Dealkylation of the Ergot Alkaloid CQA 206-291 in Humans. Simon E. Ball, Gerald Maurer, Markus Zollinger, Margarita Ladona, and Alison E. M. Vickers .......................................................... 56
The Urinary Metabolic Profile of Metyrapone in the Rat: Identification of Two Novel Isomeric Metyrapol N-Oxide Metabolites. Joel I. Usansky and Lyquatami A. Damani .......................................................... 64
Disposition of 1-Naphthol in the Channel Catfish (Ictalurus punctatus). Guy R. Stehly and Stephen M. Plakas .......................................................... 70
Effect of H2-Receptor Antagonists on Rat Liver Cyto-solic Acetyl CoA:酰氨-E-Nacetytransferase Activity. Craig K. Svensson and Mark Tomilo .......................................................... 74
Cytochrome P-450 Isozymes Involved in the Oxidative Metabolism of Δ3-Tetrahydrocannabinol by Liver Microsomes of Adult Female Rats. S. Narimatsu, K. Watanabe, T. Matsunaga, I. Yamamoto, S. Imaoka, Y. Funae, and H. Yoshimura .......................................................... 79
Felbamate Metabolism in Pediatric and Adult Beagle Dogs. J. T. Yang, M. Morris, K. K. Wong, N. Kucharczyk, and R. D. Sofia .......................................................... 84
Metabolism of the Anticoagulant Peptide, MDL 28,050, in Rats. Mary Pat Knadler, Bradley L. Ackermann, John E. Coutant, and Gail H. Hurst .......................................................... 89
Identification of Cytochrome P-450IIIB as a Cocaine-Bioactivating Isoform in Rat Hepatic Microsomes and in Cultured Rat Hepatocytes. Urs A. Boelsterli, Adriana Lanzotti, Christian Goldlin, and Maja Oertle .......................................................... 96
Dispotion of the Novel Serotonin Agonist, LY228729, in Monkeys and Rats. S. P. Swanson and J. Catlow .......................................................... 102
Pharmacokinetics and Tissue Distribution of 2-Fluoro-β-alanine in Rats: Potential Relevance to Toxicity Pattern of 5-Fluorouracil. Ruwen Zhang, Seong-Jaw Soong, Tiepu Liu, Stephen Barnes, and Robert B. Diasio .......................................................... 113

Continued on next page
Contents (cont'd.)

Comparative Metabolism and Covalent Binding of Pro-
cainamide by Human Leukocytes. Jack Uetrecht
and Bridget Sokoluk .................................. 120

SHORT COMMUNICATIONS

Isolation and Identification of the Major Urinary Me-
tabolite of N-Methylpyrrolidinone in the Rat. D.
A. Wells, A. A. Hawi, and G. A. Digenis .... 124

Metabolism of Enflurane in Dogs. T. Sakai, M. Tak-
aori, and H. Yoshida .............................. 127

Formation of a Carbamoyl Glucuronide Conjugate of
Carvedilol in Vitro Using Dog and Rat Liver Mi-
crosomes. William H. Schaefer ................. 130

Substrate Specificity and Other Characteristics of a
Novel Aldehyde Dehydrogenase Present in Female
DBA/2 Mouse Liver. N.-S. Zhoo and N. E. Sla-
dek .................................................. 134
