

Drug Metabolism and Disposition: the biological fate of chemicals

May/June 1992

Vol. 20, No. 3

CONTENTS

| | |
|--|---|
| <p>Caffeine Demethylase Activity in Human and Dark Agouti Rat Liver Microsomes: Comparison with Aminopyrine <i>N</i>-Demethylase Activity. J. A. G. AGÚNDEZ, A. LUENGO, AND J. BENÍTEZ 343</p> <p>Stereoselective Disposition of S-8666, A Novel Uricosuric Anti-hypertensive Diuretic, and its <i>N</i>-Monodemethylated Metabolite in a Perfused Rat Liver Preparation: Effect of Protein Binding on the Kinetics of S-8666. KAZUTAKA HIGAKI AND MASAYUKI NAKANO 350</p> <p>Diphenyl Ether Cleavage of 3-Phenoxybenzoic Acid by Chicken Kidney Microsomal Preparations. M. HUMAYOUN AKHTAR AND S. MAHADEVAN 356</p> <p>Differential Expression of Basal and Hydrocarbon-Induced Cytochrome P-450 Monooxygenase and Quinone Reductase Activities in Subpopulations of Murine Epidermal Cells Differing in their Stages of Differentiation. JOHN J. REINERS, JR., AMADOR R. CANTU, GERALD THAI, AND ALFRED SCHÖLLER 360</p> <p>Purification and Characterization of a Cytochrome P-450 Isozyme Catalyzing Bunitrolol 4-Hydroxylation in Liver Microsomes of Male Rats. TOKUJI SUZUKI, SHIZUO NARIMATSU, SHOICHI FUJITA, YASUHIRO MASUBUCHI, SHIN UMEDA, SUSUMU IMAOKA, AND YOSHIHIKO FUNAE 367</p> <p>Homeostasis of Sulfate and 3'-Phosphoadenosine 5'-Phosphosulfate in Rats with Deficient Dietary Intake of Sulfur. PETER ROZMAN, HYO J. KIM, CHERUKURY MADHU, ZOLTÁN GREGUS, AND CURTIS D. KLAASSEN 374</p> <p>Inhibition of Debrisoquin Clearance in Perfused Rat Livers and Inhibition of Dextromethorphan Metabolism in Human Liver Microsomes by 4-Hydroxydebrisoquin or Other Metabolites of Debrisoquin. SUTEP JARURATANASIRIKUL, ALLEN D. COOPER, AND TERRENCE F. BLASCHKE 379</p> <p><i>In Vitro</i> and <i>In Vivo</i> Biotransformations of the Potent Leukotriene D₄ Antagonist Verlukast in the Rat. D. NICOLL-GRIFFITH, J. YERGEY, L. TRIMBLE, H. WILLIAMS, R. RASORI, AND R. ZAMBONI 383</p> | <p>Physiological Disposition and Metabolism of L-365,260, a Potent Antagonist of Brain Cholecystokinin Receptor, in Laboratory Animals. I-WU CHEN, JIUNN H. LIN, JOAN M. DORLEY, HARRY G. RAMJIT, AND STEVEN M. PITZENBERGER 390</p> <p>Pharmacokinetic Evaluation of Drug Interactions with Anti-Human Immunodeficiency Virus Drugs: V. Effect of Soluble CD4 on 2',3'-Dideoxycytidine Kinetics in Monkeys. MINGXIN QIAN, ANNE R. SWAGLER, KEI-LAI FONG, C. S. CRYSLER, MEHUL MEHTA, AND JAMES M. GALLO 396</p> <p>Obesity as a Risk Factor in Drug-Induced Organ Injury: Toxicokinetics of Gentamicin in the Obese Overfed Rat. DANIEL E. SALAZAR, JEROME J. SCHENTAG, AND GEORGE B. CORCORAN 402</p> <p>Differential Effects of Human Recombinant Interleukin-1β on Cytochrome P-450-Dependent Activities in Cultured Fetal Rat Hepatocytes. LUC FERRARI, PIERRE KREMERS, ANNE-MARIE BATT, JACQUES E. GIELEN, AND GÉRARD SIEST 407</p> <p>Sulfation of Estrone and 17β-Estradiol in Human Liver: Catalysis by Thermostable Phenol Sulfotransferase and by Dehydroepiandrosterone Sulfotransferase. J. SERGIO HERNÁNDEZ, R. WILLIAM G. WATSON, THOMAS C. WOOD, AND RICHARD WEINSHILBOUM 413</p> <p>Tissue Concentrations of Coenzyme Q₁₀ in the Rat Following its Oral and Intraperitoneal Administration. SATINDERPAL REHAL AND JOHN WRIGGLESWORTH 423</p> <p>Physiological Disposition of Aerosolized MK-679 in Rats. DOMINICK J. TOCCO, F. A. DELUNA, ELIZABETH VADAS, AND J. H. LIN 428</p> <p>Disposition Kinetics of Amphotericin B in Rats: The Influence of Dose. HSIAO-HUI CHOW, YULI CAI, AND MICHAEL MAYERSOHN 432</p> <p>Effect of Dose on the Percutaneous Absorption of 2- and 4-Chloronitrobenzene in Rats. AMIN A. NOMEIR, PETER M. MARKHAM, AMY L. MONGAN, DENISE M. SILVEIRA, AND MARJORY CHADWICK 436</p> |
|--|---|

Continued on next page

Contents (cont'd.)

Hydrolysis of the 2',3'-Allylic Epoxides of Allylbenzene, Estragole, Eugenol, and Safrole by Both Microsomal and Cytosolic Epoxide Hydrolases. GANG LUO, MAZEN K. QATO, AND THOMAS M. GUENTHNER 440

Cytochrome P-450 in the Brain: Potential Evolutionary and Therapeutic Relevance of Localization of Drug-Metabolizing Enzymes. MARGARET R. BRITTO AND PETER J. WEDLUND 446

Isolation and Characterization of Carbinolamide and Phenolic Glucuronide Conjugates of (\pm)-*N*-Methyl-*N*-(1-methyl-3,3-diphenylpropyl)formamide and *N*-Formylmethamphetamine by FAB/MS, LC/MS/MS and NMR. ABDUL E. MUTLIB AND FRANK S. ABBOTT 451

SHORT COMMUNICATIONS

Influence of Dibutyryl-cAMP on Ibuprofen-Induced Alterations of Sulfate Renal Clearance in Rats. LISA JO BENINCOSA AND MARILYN E. MORRIS ... 461

Carbonyl (Phenone) Reductase in Human Liver: Structure-Activity Relationship among Substrates. J. M. Y. WONG, W. A. MAHON, W. KALOW, AND T. INABA 465

Distribution of 2,3,7,8-Tetrachlorodibenzo-*p*-dioxin in Splenic Tissue of C57BL/6J Mice. CATHERINE M. NEUMANN, LINDA B. STEPPAN, AND NANCY I. KERKVLIIET 467

Glucosidation as a New Conjugation Pathway for Metabolites of Bis(2-ethylhexyl) Phthalate. BÖRJE EGESTAD AND PER SJÖBERG 470
