

# Drug Metabolism and Disposition:

## the biological fate of chemicals

June 1996

June 1996

Vol. 24, No. 6

### CONTENTS

Comparative Effects of Carbamazepine and Carbamazepine-10,11-epoxide on Hepatic Cytochromes P450 in the Rat. SUKHBINDER K. PANESAR, STELVIO M. BANDIERA, AND FRANK S. ABBOTT . . . . .	619	Nonlinear Dorzolamide Pharmacokinetics in Rats: Concentration-Dependent Erythrocyte Distribution and Drug-Metabolite Displacement Interaction. BRADLEY K. WONG, PATRICK J. BRUHIN, ANDREA BARRISH, AND JUNN H. LIN . . . . .	659
Distribution of Tacrine and Metabolites in Rat Brain and Plasma after Single- and Multiple-Dose Regimens: Evidence for Accumulation of Tacrine in Brain Tissue. WILLIAM P. McNALLY, WILLIAM F. POOL, MICHAEL W. SINZ, PETER DEHART, DANIEL F. ORTWINE, CHE C. HUANG, TSUN CHANG, AND THOMAS F. WOOLF . . . . .	628	Epoxidation of C <sub>18</sub> Unsaturated Fatty Acids by Cytochromes P450C2 and P450CAA. RONALD M. LAETHEM, MICHAEL BALAZY, AND DENNIS R. KOOP . . . . .	664
Comparative Studies of Drug-Metabolizing Enzymes in Dog, Monkey, and Human Small Intestines, and in Caco-2 Cells. THOMAYANT PRUEKSARITANONT, LYNN M. GORHAM, JEROME H. HOCHMAN, LEKHANH O. TRAN, AND KAMLESH P. VYAS . . . . .	634	Inactivation of Cytochrome P4502B1 by the Monoamine Oxidase Inhibitors R(-)-Deprenyl and Clorgyline. UMA SHARMA, ELIZABETH S. ROBERTS, AND PAUL F. HOLLENBERG . . . . .	669
Extrahepatic Metabolism of 4-Methylumbelliferone and Lidocaine in the Anhepatic Rabbit. SCOTT L. NYBERG, HENRY J. MANN, MICHAEL Y. HU, WILLIAM D. PAYNE, WEI-SHOU HU, FRANK B. CERRA, AND RORY P. REMMEL . . . . .	643	Kinetics of Drug Metabolism in Rat Liver Slices. II. Comparison of Clearance by Liver Slices and Freshly Isolated Hepatocytes. PHILIP D. WORBOYS, ALAN BRADBURY, AND J. BRIAN HOUSTON . . . . .	676
P450-Dependent and Nonenzymatic Human Liver Microsomal Defluorination of Fluoromethyl-2,2-difluoro-1-(trifluoromethyl)vinyl Ether (Compound A), a Sevoflurane Degradation Product. EVAN D. KHARASCH AND DOUGLAS C. HANKINS . . . . .	649	Lipoic Acid Impairs Glycine Conjugation of Benzoic Acid and Renal Excretion of Benzoylglycine. ZOLTÁN GREGUS, TIBOR FEKETE, ÉVA HALÁSZI, AND CURTIS D. KLAASSEN . . . . .	682
Isolation, Purification and Biological Activity of Major Docetaxel Metabolites from Human Feces. ALEX SPARREBOOM, OLAF VAN TELLINGEN, ESTHER J. SCHERRENBURG, JAN J. B. BOESEN, MANON T. HUIZING, WILLEM J. NOOIJEN, CORNELIS VERSLUIS, AND JOS H. BEIJNEN . . . . .	655	<b>SHORT COMMUNICATIONS</b>	
		Uptake of Mefloquine Enantiomers into Uninfected and Malaria-Infected Erythrocytes. S. VIDREQUIN, F. GIMENEZ, L. K. BASCO, C. MARTIN, J. LEBRAS, AND R. FARINOTTI . . . . .	689
		Propranolol 4- and 5-Hydroxylation and N-Desisopropylation by Cloned Human Cytochrome P4501A1 and P4501A2. MICHAEL S. CHING, NEVENE BICHARA, CAROLYN L. BLAKE, HANY GHABRIAL, ROBERT H. TUKEY, AND RICHARD A. SMALLWOOD . . . . .	692
		Erratum . . . . .	703
