

# ANTHONY Y. H. LU COMMEMORATIVE ISSUE

## PREFACE

JAMES R. HALPERT, GUEST EDITOR

*Department of Pharmacology and Toxicology, University of Texas Medical Branch at Galveston*

This paper is available online at <http://www.dmd.org>

This commemorative issue of *Drug Metabolism and Disposition* honors Dr. Anthony Lu for his scientific, professional, and personal contributions to modern academic and industrial drug metabolism. The issue is centered around presentations made at a colloquium in honor of Dr. Lu entitled "Drug Metabolism in the New Millennium," held in San Francisco, California, on April 18, 1998. The colloquium was organized by Dr. Gerald T. Miwa with the sponsorship of the American Society for Pharmacology and Experimental Therapeutics. In addition to ten presentations from the colloquium, the commemorative issue contains the text of Dr. Lu's Bernard B. Brodie Award Lecture and the proceedings from two symposia at Experimental Biology '98. All of the many individuals who contributed to the colloquium and/or to the preparation of articles are gratefully acknowledged.

*Anthony Y. H. Lu, PhD*
