### DRUG METABOLISM AND DISPOSITION

A Publication of the American Society for Pharmacology and Experimental Therapeutics
Shin-ichi Ikushiro, Aldo D. Mottino, and Viviana A. Catania .......................... 2060

Human Enteric Microsomal CYP4F Enzymes O-De-
methylate the Antiparasitic Prodrug Pafurami-

P-glycoprotein-Mediated Active Efflux of the Anti-
HIV1 Nucleoside Abacavir Limits Cellular Ac-
cumulation and Brain Distribution. Naveed Shaik, Nagdeep Giri, Guoyu Pan, and William F. Elmquist ................... 2076

Analysis of CYP2A Contributions to Metabolism of 4-(Methylnitrosamino)-1-(3-pyridyl)-1-butanone in Human Peripheral Lung Microsomes. Pamela J. Brown, Leanne L. Bedard, Ken R. Reid, Dimitri Petsikas, and Thomas E. Massey ............. 2086

The CYP3A4*18 Allele, the Most Frequent Coding Variant in Asian Populations, Does Not Signifi-
cantly Affect the Midazolam Disposition in Het-

Attenuated Expression of Episodic Growth Hormone-
Induced CYP2C11 in Female Rats Associated with Suboptimal Activation of the Jak2/Stat5B and Other Modulating Signaling Pathways. Ravindra N. Dhir, Chellappagounder Thangavel, and Bernard H. Shapiro ........................ 2102

Role of Transporters in the Disposition of the Selective Phosphodiesterase-4 Inhibitor (+)-2-[4-((2-(Benzo[1,3]dioxol-5-yloxy)-pyridine-3-carbonyl)-amino)methyl]-3-fluoro-phenoxy]-propionic Acid in Rat and Human. Amit S. Kalgutkar, Bo Feng, Hang T. Nguyen, Kosea S. Frederick, Scott D. Campbell, Heather L. Hatch, Yi-An Bi, Diana C. Kazolias, Ralph E. Davidson, Rouchelle J. Mire-
les, David B. Duignan, Edna F. Choo, and Sab-
rina X. Zhao ........................................ 2111

Use of Isolated Hepatocyte Preparations for Cyto-
chrome P450 Inhibition Studies: Comparison with Microsomes for K{sub}i Determination. Hayley S. Brown, Anthony Chadwick, and J. Brian Houston ...................... 2119

Serine Hydroxymethyltransferase Isoforms Are Differentially Inhibited by Leucovorin: Characterization and Comparison of Recombinant Zebrafish Serine Hydroxymethyltransferases. Wen-Ni Chang, Jen-Ning Tsai, Bing-Hung Chen, Huei-Sheng Huang, and Tzu-Fun Fu .......................... 2127

ERRATUM
Correction to “In Vitro Metabolic Study of Tem-
sirolimus: Preparation, Isolation, and Identifi-
cation of the Metabolites”. ...................... 2138

About the cover: Metabolism of NNK. Metabolites I and II are detoxification products produced by pyridine N-oxidation; metabolites III to VI are endpoint products of α-hydroxylation and are indicative of the formation of unstable reactive metabolites which methylate or pyridyloxobutylate DNA*. See the article by Brown et al. on page 2086 of this issue.
