CONTENTS

SHORT COMMUNICATIONS

The in Vitro Drug Interaction Potential of Dietary Supplements Containing Multiple Herbal Components. ROBERT S. FOTI, JAN L. WAHLSTROM, AND LARRY C. WIEINKERS ........................................... 185

Human Hepatic Cytochrome P450-Specific Metabolism of Parathion and Chlorpyrifos. ROBERT J. FOXENBERG, BARBARA P. MCCARRIGLE, JAMES B. KNAAK, PAUL J. KOSTYNIAK, AND JAMES R. OLSON ......... 189

ARTICLES

Flavonoids Modulate Monocarboxylate Transporter-1-Mediated Transport of γ-Hydroxybutyrate in Vitro and in Vivo. Qi WANG AND MARILYN E. MORRIS ............................................................ 201

Involvement of Breast Cancer Resistance Protein (BCRP/ABCG2) in the Biliary Excretion and Intestinal Efflux of Troglitazone Sulfate, the Major Metabolite of Troglitazone with a Cholestatic Effect. JUNICHI ENOKIZONO, HIROYUKI KUSUHARA, AND YUICHI SUGIYAMA .......................................................... 209

Utility of Long-Term Cultured Human Hepatocytes as an in Vitro Model for Cytochrome P450 Induction. GEORGINA MENESES-LORENTE, CHRISTINE PATISON, CLAIRE GUYOMARD, CHRISTOPHE CHESNÉ, ROBERT HEAVENS, ALAN P. WATT, AND BINDI SOHAL .......................................................... 215

Triethylenetetramine and Metabolites: Levels in Relation to Copper and Zinc Excretion in Urine of Healthy Volunteers and Type 2 Diabetic Patients. JUN LU, YI-KAI CHAN, GREGORY D. GAMELLE, SALLY D. POPPITT, ASMA A. OTHMAN, AND GARTH J. S. COOPER .......................................................... 221

Effects of Green Tea Compounds on Irinotecan Metabolism. SNEZANA MIRKOV, BERNARD J. KOMORSKI, JACQUELINE RAMÍREZ, ANDREA YODER GABER, MARK J. RATAIN, STEPHEN C. STROM, AND FEDERICO INNOCENTI .................................................. 228

Pharmacokinetics, Tissue Distribution, Metabolism, and Excretion of Depside Salts from Salvia miltiorrhiza in Rats. XIAOCHUAN LI, YI-KAI CHAN, GRÉGOIRE D. GAMBLE, SALLY D. POPPITT, ASM A. OTHMAN, AND GARTH J. S. COOPER .......................................................... 224

Triptolide and Triptolides: Levels in Relation to Copper and Zinc Excretion in Urine of Healthy Volunteers and Type 2 Diabetic Patients. JUN LU, YI-KAI CHAN, GREGORY D. GAMELLE, SALLY D. POPPITT, ASMA A. OTHMAN, AND GARTH J. S. COOPER .......................................................... 221

Mechanism-Based Inactivation of Human Cytochrome P450 Enzymes and the Prediction of Drug-Drug Interactions. R. SCOTT OBACH, ROBERT L. WALSKY, AND KARTHIK VENKATAKRISHNAN .......................................................... 246

Effects of Alterations in CAR on Bilirubin Detoxification in Mouse Collagen-Induced Arthritis. ATSUSHI KAWASE, YOUSUKI IWASAKI, AND MASASHI IWAIKI .......................................................... 256

Recirculatory Pharmacokinetic Model of the Uptake, Distribution, and Bioavailability of Prochlophorazine Administered as a Thermally Generated
