Journals Director: Richard Dodenhoff

Correspondence concerning subscriptions to Authors and the ASPET Authorship Responsibility, Financial Dis-

Correspondence regarding editorial matters should be addressed to Dr. Eric F. Johnson, Editor, Drug Metabolism and Disposition, at the above address.

Instructions to Authors: See http://dmd.aspetjournals.org for the Instructions to Authors and the ASPET Authorship Responsibility, Financial Disclosure, and Copyright Transfer form.

Change of address: ASPET must be notified 60 days in advance. Journals undeliverable because of incorrect address will be destroyed. Duplicate copies may be obtained, if available, from ASPET at the single copy price. Send address changes to the ASPET office.

Issue Replacement Policy: Domestic Subscribers—Claims for nondelivery of issues must be made within three (3) months of issue mail date. Foreign Subscribers—Claims for nondelivery of issues must be made within six (6) months of issue mail date. Missing Issues (domestic and foreign)—ASPET will not honor refunds or replace-ment requests made outside of the claim time period. Up to two (2) issues will be replaced free of charge per subscription year. Reprints of individual articles are available from the authors and from Infotrieve at www.infotrieve.com; otherwise call 800-422-4633, fax 310-208-5971, or email orders@infotrieve.com. Please send as much citation information as possible such as journal title, volume issue, page number, year, authors, article title, etc.

Reprints in large quantities for commercial or academic use may be purchased from the publisher. For information and prices, call 301-634-7063.

Copyright Information: Drug Metabolism and Disposition is copyrighted by The American Society for Pharmacology and Experimental Therapeutics. Photocopying of articles beyond that permitted by Sections 107 and 108 of the U.S. Copyright Law is allowed, provided that the $20.00-per-copy fee is paid through the Copyright Clearance Center, 222 Rosewood Drive, Danvers, MA 01923. Classroom photocopying is permitted at no fee, provided that students are not charged more than the cost of duplication. This consent does not extend to other kinds of copying. Reproduction of any portion of an article for subsequent republication requires permission of ASPET. Write to the ASPET office at the above address. Requests should include a statement of intended use as well as explicit specifications of the materials to be reproduced.

Disclaimer: The statements and opinions contained in the articles of Drug Metabolism and Disposition are solely those of the individual authors and contributors and not of The American Society for Pharmacology and Experimental Therapeutics. The appearance of advertisements in the journal is not a warranty, endorsement, or approval of the products of safety. The American Society for Pharmacology and Experimental Therapeutics disclaims responsibility for any injury to persons or property resulting from any ideas of products referred to in the articles or advertisement.
2007 FASEB Summer Research Conferences

Saxtone River, Vermont
- Transport ATPases: Structure, Mechanism, Genomics & Disease
- Nuclear Structure & Cancer
- Mechanisms & Regulation of Prokaryotic Transcription
- Renal Hemodynamics: Biomolecular Control Mechanisms Integrating Vascular & Tubular Function
- Autoimmunity
- Hematopoietic Malignancies
- Lipid Droplets: Metabolic Consequences of Stored Neutral Lipids
- The Biology of Cilia & Flagella

Tucson, Arizona
- Mobile Elements in Mammalian Genomes
- Lyso phospholipid Mediators in Health & Disease
- Thrombospondins & Other Matricellular Proteins in Tissue Organization & Homeostasis
- Lymphocytes & the Immune System: Molecular, Cellular & Integrative Mechanisms
- TGF-B Superfamily: Signaling & Development
- Ciliate Molecular Biology
- Nutritional-Immunology: It's Role in Health & Disease
- Assembly of the Mitochondrial Respiratory Chain
- Growth Factor Receptor Tyrosine Kinases in Mitogenesis, Morphogenesis, & Tumorigenesis

Snowmass Villa, Colorado
- Histone Deacetylases
- Ion Channel Regulation
- The Biology and Chemistry of Vision
- Signal Transduction in the Immune System
- Chromatin & Transcription
- The Biology of Calpains in Health & Disease
- Microbial Pathogenesis: Mechanisms of Infectious Disease
- Genetic Recombination & Genome Rearrangements
- Glucose Transporter Biology
- Gastrointestinal Tract XII: The Molecular & Integrative Basis for GI Development, Homeostasis & Disease

Indian Wells, California
- Proteases in Hemostasis & Vascular Biology
- Mitosis: Spindle Assembly and Function
- Helicases & NTP-Driven Nucleic Acid Motors: Structure, Function, Mechanisms & Roles in Human Disease
- Protein Kinases & Protein Phosphorylation
- Skeletal Muscle Satellite & Stem Cells
- Unfolded Proteins in the Endoplasmic Reticulum to Disease
- Energy Balance, Body Fat & Disease
- Lipid Signaling Pathways in Cancer

Il Cairo, Luca, Toscan, Italy
- ARF Family GTPases

Bondi Beach, Sydney, Australia
- Neural Mechanisms in Cardiovascular Regulation

Information & Application
Available in March on our web site: http://src.faseb.org
FASEB Members Will Automatically Receive the Meeting Notice

Training Opportunities in Integrative Organ Systems Science

Summer Short Courses 2007

Each short course is designed to introduce graduate students and Ph.D.s to the knowledge and skills needed for integrative studies of organ systems and intact animals, and the physiological and biochemical responses of these systems to drugs. Sign up for a summer short course and learn the critical skills that are in high demand in today’s academic and industrial settings.

Offered at the following institutions:

* Michigan State University
* University of California at San Diego
* University of Nebraska Medical Center
* University of North Carolina at Chapel Hill

For additional information view the ASPET Home Page at [www.aspet.org](http://www.aspet.org) (see Featured Links)
