Correction to "In Vivo-Formed versus Preformed Metabolite Kinetics of *trans*-Resveratrol-3-sulfate and *trans*-Resveratrol-3-glucuronide"

In the article referenced above [Sharan S, Iwuchukwu OF, Canney DJ, Zimmerman CL, and Nagar S (2012) *Drug Metab Dispos* **40:**1993–2001; doi:10.1124/dmd.112.046417], errors were introduced to equations (1)–(3) after the authors corrected the page proofs. "RES" instead of "R3S" or "R3G" was used as a superscript in four places. The corrected equations are:

$$fm_{R3S} = \left[\frac{(AUC_{R3S}^{RSS})}{(AUC_{R3S}^{R3S})}\right] \times \left[\frac{Dose_{R3S}}{Dose_{RES}}\right] \times \left[\frac{CI_{R3S}^{RES}}{CI_{R3S}^{R3S}}\right]$$
(1)

$$fm_{R3G} = \left[\frac{(AUC_{R3G}^{RES})}{(AUC_{R3G}^{R3G})}\right] \times \left[\frac{Dose_{R3G}}{Dose_{RES}}\right] \times \left[\frac{Cl_{R3G}^{RES}}{Cl_{R3G}^{R3G}}\right]$$
(2)

$$fm_{R3S} = \left[\frac{(AUC_{R3S}^{RSS})}{(AUC_{R3S}^{R3S})}\right] \times \left[\frac{Dose_{R3S}}{Dose_{RES}}\right]$$
(3)
