Drug Metabolism and Disposition:
the biological fate of chemicals

September/October 1994 Vol. 22, No. 5

CONTENTS

Role of Cytochrome P450 2E1 in the Metabolism of 1,1,2,3,3-Hexafluoropropyl Methyl Ether. UTA KOSTER, PETRA SPEERSCHNEIDER, RAINER KERSEBAUM, HARALD WITTMANN, and WOLFGANG DEKANT .......................... 667

1-(2-Chloroethyl)-3-cyclohexyl-1-nitrosourea (CCNU) Modulates Rat Liver Microsomal Cyclophosphamide and Ifosfamide Activation by Suppressing Cytochrome P450 2C11 Messenger RNA Levels. THOMAS K. H. CHANG, HAIYAN CHEN, and DAVID J. WAXMAN .......................... 673

Role of Kupffer Cells in Storage and Metabolism of Benzo[a]pyrene in the Liver. ZHI ZHONG, MORITAKA GOTO, TAIZO HIJO, HIOSUJI OIDE, FREDERICK C. KAUFFMAN, and RONALD G. THURMAN ........................................ 680

cDNA-directed Expression of Human Cytochrome P450 CYP3A4 Using Baculovirus. JOROEN T. M. BUTERS, KENNETH R. KORZEKWA, KENT L. KUNZE, YOSHIAKI OMATA, JAMES P. HARDWICK, and FRANK J. GONZALEZ .......................... 688

Physiological Disposition of 1-663,581, a Partial Agonist of the Benzodiazepine Receptor, in Laboratory Animals. I-WU CHEN and JUANN H. LIN ........................................ 693

Oxidation of R(+)- and S(−)-Carvedilol by Rat Liver Microsomes: Evidence for Stereoselective Oxidation and Characterization of the Cytochrome P450 Isozymes Involved. MASAYOSHI FUJIMAKI ........................................................................................................... 700

Stereoselective Hydroxylation of Tacrine in Rats and Humans. WAYNE D. HOOPER, WILLIAM F. POOL, THOMAS F. WOOLF, and JOSEPH GAL .................. 719

Sulfation of Acetaminophen and Acetaminophen-induced Alterations in Sulfate and 3'-Phosphoadenosine 5'-phosphosulfate Homeostasis in Rats with Deficient Dietary Intake of Sulfur. Z. GREGUS, H. J. KIM, C. MADHU, Y. LIU, P. ROZMAN, and C. D. KLAASSEN .......................... 725

Detoxication of the 2',3'-Epoxide Metabolites of Allylbenzene and Estragole: Conjugation with Glutathione. GANG LUO and THOMAS M. GUENTHNER .......................... 731

Novel Carbamate Metabolites of Mofegiline, a Primary Amine Monoamine Oxidase B Inhibitor, in Dogs and Humans. JAMES DOW, FRANCOIS PIRIOU, EVELYNE WOLF, BERTRAND D. DULERY, and KLAUS D. HAEGELE .......................... 738

Formation of Toxic Metabolites from Thiabendazole and Other Thiazoles in Mice: Identification of Thioamides as Ring Cleavage Products. TAMIO MIZUTANI, KAORU YOSHIDA, and SADAIRO KAWAZOE ........................................ 750

Metabolism of Methoxyphenamine in Vitro by a CYP2D6 Microsomal Preparation. R. T. COUTTS, O. O. BOLAJI, P. SU, and G. B. BAKER .......................... 756

Inter-individual Differences of 4-[4-(4-Methylphenyl)-phenylmethoxy-1-piperidinyl]butyric Acid Disposition in Rats: Possible Involvement of Genetic Polymorphism. EJI TAKAHARA, OSAKU NAGATA, HIDRO KATO, SHIGERU OHTA, and MASAAKI HIROBE ........................................ 761

Pharmacokinetics of Dapsone and Amino Acid Prodrugs of Dapsone. NANCY L. POCHPIN, WILLIAM N. CHARMAJ, and VALENTINO J. STELLA .......................... 770

Effects of Diltiazem on the Disposition and Metabolism of the Enantiomers of Propranolol in the Dog during Multiple Oral Dosing. SUSAN M. LANKFORD, CHAIYASIT MASKASAME, and STEPHEN A. BAI ........................................ 776

ANNOUNCEMENT

Effective January 1, 1994 all manuscripts for submission to DRUG METABOLISM AND DISPOSITION: THE BIOLOGICAL FATE OF CHEMICALS should be sent to:

Raymond F. Novak, Editor
Institute of Chemical Toxicology
Wayne State University
2727 Second Avenue, Room 4000
Detroit, Michigan 48201-2654

Telephone 313-961-4943
Fax 313-577-0082
