Drug Metabolism and Disposition: the biological fate of chemicals

August 1996

Vol. 24, No. 8

CONTENTS

Metabolism of Racemic 3,4-Methylenedioxyethylamphetamine in Humans: Isolation, Identification, Quantification, and Synthesis of Urinary Metabolites. HARTMUT K. ENSSLIN, HANS H. MAURER, EUPHROSYNE GOUZOLIS, LEOPOLD HERMLE, AND KARL-ARTUR KOVAR ................................................................. 813

Sequestered Endoplasmic Reticulum Space for Sequential Metabolism of Salicylamide: Coupling of Hydroxylation and Glucuronidation. ROMMEL G. TIRONA AND K. SANDY PANG ................................. 821

Metabolism of Atrazine, Terbutylazine, Ametryne in Vitro. M. J. GÓMEZ-LECHÓN, AND J. V. CASTELL ................................................................. 834

Reactivity of Mefenamic Acid 1-O-Acyl Glucuronide with Proteins In Vitro and Ex Vivo. KAREN A. MCGRUR, RORY P. REMMEL, VINAYAK P. HOSAGRAHARA, DAVID TOSH, AND BRIAN BURCHELL .................. 842

Effects of Ethanol and Cocaethylene on Cocaine Pharmacokinetics in Conscious Dogs. ROBERT B. PARKER, CHERI L. WILLIAMS, S. CASEY LAIZURE, TIMOTHY D. MANDRELL, GREGORY S. LABRANCHE, AND JOHN J. LIMA ................................................................. 850

Regulation of Hepatic Sulfotransferases by Steroidal Chemicals in Rats. LAN LIU AND CURTIS D. KLAASSEN ................................................................. 854

In Vitro Metabolism of Atrazine, Terbutylazine, Ametryne, and Terbutrynne in Rats, Pigs, and Humans. DIETER LANG, DAGMAR CREEGE, ANJA GROTHUSEN, ROLF W. SAALFRANK, AND RONALD H. BÖCKER ................................................................. 859

Metabolism and Toxicity of 4-Hydroxyphenylacetone in Rat Liver Slices: Comparison with Acetaminophen. DAVID C. THOMPSON, AND KUMAR PERERA, AND ROBERT LONDON ................................................................. 866

Cytochrome P4503A Is the Major Source of N-Vinylprotoporphyrin IX Formation after Administration of 3-[2-(2,4,6-Trimethylphenyl)thioethyl] -4-methylsydnone to Untreated and Dexamethasone-Pretreated Rats. JAMES P. MCNAMEE AND GERALD S. MARKS ................................................................. 872

Purification and Characterization of a Medium Chain Acyl-Coenzyme A Synthetase. FUMIYO KASUYA, KAZUO IGARASHI, MIYOSHI FUKUI, AND KIYOSHI NOKIHARA ................................................................. 879

Expression of CYP2A Genes in Rodent and Human Nasal Mucosa. TING SU, JONATHAN J. SHENG, THOMAS W. LIPINSKAS, AND XINXIN DING ................................................................. 884

Identification of Tissue-Specific DNase I Hypersensitive Sites in the Rabbit Flavin-Containing Monoxygenase Form 2 Gene. STACEY E. SHEHIN-JOHNSON, KENNETH C. PALMER, AND RONALD N. HINES ................................................................. 891

Expression of Cytochromes P450 in Human Breast Tissue and Tumors. ZEQI HUANG, MICHAEL J. FASCO, HELEN L. FIGGE, KHANDAN KEYOMARSI, AND LAURENCE S. KAMINSKY ................................................................. 899

Biotransformation of the Aerosol Propellant 1,1,1,2,3,3,3-Heptafluoropropane (HFA-227): Lack of Protein Binding of the Metabolite Hexafluoroacetone. U. KÖSTER, D. MAYER, H. M. DEGER, AND W. DEKANT ................................................................. 906

Pharmacokinetics of Ethylene Glycol. I. Plasma Disposition after Single Intravenous, Peroral, or Percutaneous Doses in Female Sprague-Dawley Rats and CD-1 Mice. STEPHEN W. FRANTZ, JOYCE L. BESKITT, CHRISTINE M. GROSE, MARILYN J. TALLANT, F. KIRK DIETZ, AND BRYAN BALLANTYNE ................................................................. 911

# Contents (cont’d.)

## SHORT COMMUNICATIONS

Local Perivascular Administration of Basic Fibroblast Growth Factor: Drug Delivery and Toxicological Evaluation. JOHN J. LOPÉZ, ELAZER R. EDELMAN, ALON STAMLER, JAMES P. MORGAN, FRANK W. SELLKE, AND MICHAEL SIMONS. ............... 922

## ERRATUM

Uptake of Sulfate Conjugates by Isolated Rat Hepatocytes. ABDULLAH M. HASSEN, DENNIS LAM, MASATO CHIBA, EUGENE TAN, WANPING GENG, AND K. SANDY PANG. ......................... 925
