

ASPET Membership

The Benefits Add Up!

ASPET Membership Includes Online Access to:

Journal of Pharmacology and Experimental Therapeutics
Pharmacological Reviews
Molecular Pharmacology
Drug Metabolism and Disposition
Molecular Interventions (print subscription also included)

*Includes access to all
archival issues going back
to volume 1, issue 1,
of each journal*

*The savings
from one article
pay for a year's
dues*

Members Save 50% on Page Charges and Color Fees

\$40/page for members versus \$80 for nonmembers
\$200/figure for members versus \$400 for nonmembers
Includes *JPET*, *Molecular Pharmacology*, and *DMD*

Reduced Registration Fees for ASPET Meetings — *Including Experimental Biology*

**Public Affairs Advocacy for Increased Research Funding and Science Policy
Favorable to Biomedical Research** — *Public policy reports provided regularly*

Personal print subscriptions are available only to ASPET Members:

Journal of Pharmacology and Experimental Therapeutics - \$210
Pharmacological Reviews - \$89
Drug Metabolism and Disposition - \$112
Molecular Pharmacology - \$152

*For ASPET
Members
Only!*

**Apply for membership online at
www.aspet.org**

- American Society for Pharmacology and Experimental Therapeutics (ASPET)

Abstract Deadline:
Wednesday, November 4, 2009

2010

Science is built up of facts, as a house is built of stones; but an accumulation of facts is no more a science than a heap of stones is a house

~Henri Poincaré, 1905

Simcyp consultancy...

building prospective clinical knowledge from your *in vitro* ADME data

Simcyp is the leader in mechanistic pharmacokinetics with an international reputation in *in vitro* - *in vivo* extrapolation of ADME data. In addition to licensing the Simcyp Simulator we offer consultancy services on all aspects of drug absorption, distribution, metabolism & elimination (ADME) and pharmacokinetic-pharmacodynamic (PK-PD) data analysis and interpretation..

There are four ways to take advantage of Simcyp Consultancy:

Let Simcyp analyse your data...

Using your data, Simcyp's scientists can provide advice on the design of your ADME experiments and deliver independent analysis interpretation and report. This service is ideally suited to those clients who do not have the resource, time or need to use our simulation technology directly.

Become part of Simcyp...

Send your scientist(s) and data to Simcyp's R&D centre in Sheffield, UK, for a short residential period. In addition to hands-on access to the Simcyp Population-based ADME Simulator, our specialist science team will be continuously available for technical support and advice on your specific project.

Connect with Simcyp expertise on-line...

Gain access to our Simulator and specialist science team on-line. This may be the preferred option for the more experienced Simulator user.

Consultancy tailored to your specific needs...

We can combine any of the above approaches to suit the demands of your project.
