

# DRUG METABOLISM AND DISPOSITION

A Publication of the American Society for Pharmacology and Experimental Therapeutics

March 2015

Vol. 43, No. 3

## CONTENTS

### MINIREVIEW

- Inflammation-Induced Phenoconversion of Polymorphic Drug Metabolizing Enzymes: Hypothesis with Implications for Personalized Medicine. *Rashmi R. Shah and Robert L. Smith* . . . . . **400**

### SHORT COMMUNICATION

- Differential Expression of Cytochrome P450 Enzymes from the CYP2C Subfamily in the Human Brain. *Iris M. Booth Depaz, Francesca Toselli, Peter A. Wilce, and Elizabeth M. J. Gillam* . . . . . **353**

### ARTICLES

- Characterization of Phase I Metabolism of Resibufogenin and Evaluation of the Metabolic Effects on Its Antitumor Activity and Toxicity. *Jing Ning, Zhen-Long Yu, Liang-Hai Hu, Chao Wang, Xiao-Kui Huo, Sa Deng, Jie Hou, Jing-Jing Wu, Guang-Bo Ge, Xiao-Chi Ma, and Ling Yang* . . . . . **299**

- Formation of the Accumulative Human Metabolite and Human-Specific Glutathione Conjugate of Diclofenac in TK-NOG Chimeric Mice with Humanized Livers. *Hidetaka Kamimura, Satoshi Ito, Kohei Nozawa, Shota Nakamura, Hiroyuki Chijiwa, Shin-ichiro Nagatsuka, Miyuki Kuronuma, Yasuyuki Ohnishi, Hiroshi Suemizu, and Shin-ichi Ninomiya* . . . . . **309**

- Therapeutic Efficacy of Wuzhi Tablet (*Schisandra sphenanthera* Extract) on Acetaminophen-Induced Hepatotoxicity through a Mechanism Distinct from *N*-Acetylcysteine. *Xiaomei Fan, Pan Chen, Yiming Jiang, Ying Wang, Huasen Tan, Hang Zeng, Yongtao Wang, Aijuan Qu, Frank J. Gonzalez, Min Huang, and Huichang Bi* . . . . . **317**

- Prediction of Renal Transporter Mediated Drug-Drug Interactions for Pemetrexed Using Physiologically Based Pharmacokinetic Modeling. *Maria M. Posada, James A. Bacon, Karen B. Schneck, Rommel G. Tirona, Richard B. Kim, J. William Higgins, Y. Anne Pak, Stephen D. Hall, and Kathleen M. Hillgren* . . . . . **325**

- Pregnane X Receptor Modulates the Inflammatory Response in Primary Cultures of Hepatocytes. *Mengxi Sun, Wenqi Cui, Sarah K. Woody, and Jeff L. Staudinger* . . . . . **335**

- Stereoselective Inhibition of Human Butyrylcholinesterase by the Enantiomers of Bambuterol and Their Intermediates. *Marco Pistolozzi, Huaqiao Du, Hong Wei, and Wen Tan* . . . . . **344**

- Identification of 2-Aminothiazolobenzazepine Metabolites in Human, Rat, Dog, and Monkey Microsomes by Ion-Molecule Reactions in Linear Quadrupole Ion Trap Mass Spectrometry. *Minli Zhang, Ryan Eismin, Hilikka Kenttämä, Hui Xiong, Ye Wu, Doug Burdette, and Rebecca Urbanek* . . . . . **358**

- Interspecies Variability in Expression of Hepatobiliary Transporters across Human, Dog, Monkey, and Rat as Determined by Quantitative Proteomics. *Li Wang, Bhagwat Prasad, Laurent Salphati, Xiaoyan Chu, Anshul Gupta, Cornelis E.C.A. Hop, Raymond Evers, and Jashvant D. Unadkat* . . . . . **367**

- The Role of Extrahepatic Metabolism in the Pharmacokinetics of the Targeted Covalent Inhibitors Afatinib, Ibrutinib, and Neratinib. *Yoshihiro Shibata and Masato Chiba* . . . . . **375**

- Mg<sup>2+</sup>/Mn<sup>2+</sup>-Dependent Phosphatase 1A Is Involved in Regulating Pregnane X Receptor-Mediated Cytochrome p450 3A4 Gene Expression. *Satyanarayana R. Pondugula, Patrick C. Flannery, Udayan Apte, Jeganathan Ramesh Babu, Thangiah Geetha, Shraddha D. Rege, Taosheng Chen, and Kodye L. Abbott* . . . . . **385**

- Conversions of Tricyclic Antidepressants and Antipsychotics with Selected P450s from *Sorangium cellulosum* So ce56. *Martin Litzenburger, Fredy Kern, Yogan Khatri, and Rita Bernhardt* . . . . . **392**

Continued on next page

▣ Are Capecitabine and the Active Metabolite 5-FU CNS Penetrable to Treat Breast Cancer Brain Metastasis?. *Jinqiang Zhang, Lingli Zhang, Yumei Yan, Shaorong Li, Liang Xie, Wei Zhong, Jing Lv, Xiuhua Zhang, Yu Bai, and Ziqiang Cheng . . . . .* **411**

The Allosteric Binding Sites of Sulfotransferase 1A1. *Ian Cook, Ting Wang, Charles N. Falany, and Thomas S. Leyh . . . . .* **418**

▣ Supplemental material is available online at <http://dmd.aspetjournals.org>.

*About the cover:* Relative abundance of quantifiable transporters in liver tissue of humans, beagle dogs, cynomolgus monkeys, Sprague-Dawley and Wistar rats. See the article by Wang et al. ([dx.doi.org/10.1124/dmd.114.061580](https://doi.org/10.1124/dmd.114.061580)).
