

Correction to “RNA Editing Enzymes Modulate the Expression of Hepatic CYP2B6, CYP2C8, and Other Cytochrome P450 Isoforms”

In the above article [Nozaki K, Nakano M, Iwakami C, Fukami T, and Nakajima M (2019) *Drug Metab Dispos* 47(6): 639-647; DOI: <https://doi.org/10.1124/dmd.119.086702>], several errors were introduced during copyediting.

First, an incorrect version of Figure 6 was published. In panel H, the “b” should be a “ β ”. The corrected Figure 6 is displayed below.

The second error appeared in Table 2 where hyphens were incorrectly set in the terms *N*-Desethylamodiaquine, 4'-Hydroxydiclofenac, and 1'-Hydroxybufuralol. The corrected Table 2 is displayed below.

TABLE 2
Conditions of liquid chromatography–tandem mass spectrometry

Isoform	Metabolite	<i>m/z</i>		Collision Energy <i>eV</i>
		Precursor Ion	Production	
CYP1A2	Acetaminophen	152.05	110.00	–16
CYP2C8	<i>N</i> -Desethylamodiaquine	328.10	283.05	–19
CYP2C9	4'-Hydroxydiclofenac	311.15	267.10	10
CYP2D6	1'-Hydroxybufuralol	278.35	186.05	–18

m/z, mass-to-charge ratio.

The third error appeared on page 640, in the Materials and Methods section. In the third sentence, a hyphen was incorrectly added to the term 1'-Hydroxybufuralol. The correct term is 1'-Hydroxybufuralol.

The HTML and PDF versions of the article have been corrected.

The compositor apologizes for the errors and any inconvenience they caused.
