Supplemental Fig. 1 Plasma concentrations of triazolam, 1’-hydroxytriazolam and 4-hydroxytriazolam in WT (A), 3aKO (B) and hCYP3A/3aKO (C) mice.

Mice (n = 5/group) were given an oral dose of triazolam (2 mg/kg). Plasma concentrations of triazolam (closed circles), 1’-hydroxytriazolam (open circles) and 4-hydroxytriazolam (open triangles) were determined. Each point represents the mean with S. D.
